Chomerics produces and delivers more than half a million membrane keyboards per month — more than any U.S. company. We make keyboards and touch panels for all kinds of applications. In all sorts of sizes and shapes. With multiple color graphics on many different surfaces. Why is Chomerics the leader?

Because we've developed the technology* — and because our membrane keyboards are highly

*15 issued U.S. patents, others pending.

reliable, competitively priced, and available in volume. You'll find them in use on many top brand consumer products.

Before you place your keyboard order with a label salesman or someone else who can't deliver quality keyboards in large quantities, better contact Chomerics. To find out more about our reliable, decorative, easy-to-clean, moisture-sealed membrane keyboard panels, call Ray Iannetta, Sales Manager, at (617) 935-4850.
