

# TIME TESTED KEYBOARDS

Dealing with complex computer controlled operations, you must have dependability and accuracy. You can't expect performance any better than the data you put into the system. That's why you should choose the best input system available . . . A NAVCOR KEYBOARD.

OVER 5 YEARS  
OF EXPERIENCE  
IN FIELD OPERATION!

NAVCOR has been supplying electronic keyboards for computer controlled operations for over five years. We know how to make them right, and 10 keys or 100, we'll supply exactly the keyboard you need. Just check these features:

- Proven reed keyswitches with life expectancy of over 100 million operations
- Any number of keys in any required configuration
- Unique core coding for higher reliability
- Widest selection of special function keyswitches
- Compliance with a variety of Federal standards for MIL SPECS
- Complete modularity: Specify only what you need from simple reed switches to complete keyboard systems
- Widest range of options in electronic interfaces and complete engineering services
