

# KEY TRONIC

## With The People And Products That Make Us The World's Leading Manufacturer of Keyboards!

Responding to the needs of the keyboard industry, Key Tronic introduces three new products . . .

### 19MM CAPACITANCE KEYBOARD

New full-travel "low profile" keyboards are available with our proven capacitive technology for encoded applications (especially for detached keyboards).

### 19MM SCREENED-CONTACT KEYBOARD

Key Tronic's full-travel wired-only keyboards are designed

with a low 19mm profile, providing reliability at a lower cost than any previous contact technology.

### ENCLOSED KEYBOARDS

Enclosed standard and custom keyboards are now available to satisfy your keyboard module needs.

See these new products and talk to a Key Tronic representative in our booth (#5505) at the National Computer Conference!
