

NEW FROM MICRO SWITCH

solid-state-encoded keyboard assemblies

Complete keyboards—assembled, encoded, and ready to interface with your equipment.

These new keyboards feature reliability, flexibility and customized appearance that will give new sales appeal to your equipment. Exclusive new solid-state encoding and dry reed switch input assure your user the maximum in up time, and these features assure you the

minimum in maintenance.

You get a wide choice of custom-design opportunities to reduce your engineering and production costs. A unique new electronic interlock to increase operator speed and efficiency over existing approaches. An electronic strobe to delay the read cycle until the output is stabilized. Input flexibility to match your requirements.

MICRO SWITCH capabilities provide efficient factory assembly techniques to give you a customized keyboard at a price competitive with fixed format keyboards.

When you think of keyboards, think of MICRO SWITCH. Our Field Engineers can be a valuable asset to your design team. Call a Branch Office today. Or write for complete information.
