**SMK.
THE
WAY IT
SHOULD
BE.**

In this world of compromise it's good to know that one company still puts more into a product so you get more out of it. SMK takes infinite care in the way it manufactures all of its electromechanical products—each receives the same attention to detail and offers the same high quality and design advantages that have made SMK the company to switch to. Plus—SMK now has coupled this in-depth product capability with better-than average lead times for everything from sockets and switches to phone jacks and keyboards, touch-tone pads and more. It's true others may compete in price. But in product quality and service—SMK has no competition.

Contact us today for more information and your copy of our new short form catalog. **SMK Electronics Corporation, 113 E. Savarona Way, Carson, CA 90746, Phone (213) 770-8915.**
