

If you have more brains than money...

If you could eliminate the semi-conductors from a computer, and still get the same performance, could you see some dollars saved? Could you see higher reliability?

That's the approach we have taken with our input keyboard. We made it self encoding without electronics. We eliminated built-in solid-state circuits. We kept it simple.

And we saved you money. The Synergistics Self Encoding Keyboard is only \$68 in quantity orders.

That's with a 65-key layout. With fewer keys it's less, with more it's more. But the point is you can specify your own layout, from 12-key Touch Tone to over 100 keys – even mix keyboard sizes and shapes – without extra charge. Change keys yourself, too.

Most important, the Synergistics keyboard is here now, manufactured in quantity. Or, if you would like to check out everything we claim, order one for evaluation. And if you want to call us, ask for George Rice.

Synergistics, Inc.

10 Tech Circle, E. Natick, Mass. 01760 (617) 655-1340

Yes, I am interested in the Synergistics Self Encoding keyboard. Please send me:

- ☐ Additional technical information.
- ☐ Instructions for ordering one keyboard for evaluation, made to my layout specifications. Prices to be included.
