

The face you love to touch.

The face of the patented Klixon® keyboard from Texas Instruments. People love to touch it because they can hear it click. And they can feel it click. Which is why the Klixon keyboard is used by more pocket calculator manufacturers than any other type. There are countless other applications.

We've got a new brochure that tells you how reliable it is (gold-surfaced discs are sealed in Mylar™), how inexpensive it is, and about the company that stands behind it. For your copy, fill out the coupon on the reverse side.

Now read about the exclusive gold disc keyboards from Texas Instruments.

Basic 1KS keyboard array

Mylar sealed for protection against dust, lint, and accidents like coffee spills.

Snap-action Klixon® disc gives positive tactile feedback and error-free data entry.

All contacts are gold-surfaced for high reliability.

Keyboard arrays can be provided to interconnect with most popular logic circuits. Available in a choice of formats, allowing variations in the number and spacing of keys.

1KS keyboard array only .150 inches thick.

Complete 6KS keyboard assembly

Double-shot molded keytops provide quality feel and appearance.

TI capability to furnish complete keyboard—reduces customer tooling costs.

Low-profile. Complete 6KS keyboard assembly only .320 inches thick.

Brushed stainless steel escutcheon for appearance and durability.
