## NEW OPTO-ELECTRONIC KEYBOARD

**IMMEDIATE  
DELIVERY**

They said it couldn't be done! Build a DTL/TTL compatible contactless, solid state keyboard with bounce-free output for less than \$100.00 (As low as \$60.00 in large qty.). TEC did — with optical code generation on a 47-key keyboard generating 65 ASCII character codes — and keytops are included! To learn more about this keyboard — a direct replacement for many now on the market — call or write TEC, Incorporated; 6700 South Washington Avenue; Eden Prairie, Minnesota 55343; or phone (612) 941-1100.

**IMMEDIATE  
DELIVERY**

This low price doesn't mean a bare bones, unusable terminal! With TEC's Series 400 DATA-SCREEN™ Terminal, you get a 1000 character display unit with full edit capabilities (insert/delete character/line; erase to end of line/page; blink; screen protect; tab; and full cursor controls). You get Teletype (current loop; TTL; RS 232) or high speed parallel (TTL compatible) interface. Price includes keyboard! For more facts, contact TEC, Incorporated; 6700 South Washington Avenue; Eden Prairie, Minnesota 55343; or phone (612) 941-1100.
