

The foremost solution
when you're selecting switches...

Pushbutton, Touch, Key and Rotary Switches from CENTRALAB

When you're looking for switches that help solve your design problems, match your packaging needs, or control your production assembly costs, you'll find the variety of choice at Centralab. We're best known as the leading supplier of sub-miniature, miniature and heavy duty rotary switches. Our broad line of switches offers you much more. You'll find pushbutton switches, lighted and non-lighted, in single station or ganged assemblies and a range of design options unmatched anywhere. You'll also find modular panel key-switches and the Monopanel touch switch system that can give your product a competitive edge in appearance, design and function.

Every Centralab switch is backed by over 50 years of switch technology and service. Popular standard types are available off-the-shelf from over 200 Industrial Distributors and custom assembled types are available from over 30 Switch Assembly Distributors.

Find out why we say the foremost source for switches is Centralab. Call your Centralab Sales Representative or write Centralab, Inc., a North American Philips Company, 5855 N. Glen Park Road, P.O. Box 2032, Milwaukee, Wisconsin 53201.

NEW MPS-SERIES KEYSWITCH

Here's a modular keyswitch to help the μ P control designer meet analog and digital requirements, save space and simplify front panel design. It offers a choice of momentary, push-push or ganged interlocking functions and is designed for automatic wave soldering and pc board mounting. Its low profile and host of options give you an exceptional design flexibility. This new switch is now available from Centralab Pushbutton Switch Assembly Distributors or through your Centralab Sales Representative.

NEW FILM BASE MONOPANEL TOUCH SWITCH

This latest addition to our line of cost-effective Monopanel touch switches is the logical choice for appliance and other high volume applications. You can design-it-in as an integral part of a custom panel because it includes switches, graphics and terminations. It eliminates costly installation. You get custom graphics, a planar, easy-to-clean spill-proof surface and long, reliable switching. To help you in your switch design and evaluation, standard key-boards and prototyping panels are available off-the-shelf from your Centralab Industrial Distributor.

NEW MICROMINIATURE ENCLOSED ROTARY SWITCH

For maximum switching in a small package, this new high quality microminiature rotary switch is ideal. Its less than 1/2" diameter and 0.5 amp @ 12VDC rating make it your choice for front panel or internal mounting in communications and instrumentation applications. It's totally enclosed in a brass case, dust or water sealed and pc board mountable. Available as a 1, 2, or 3 pole switch with continuous rotation and up to 12 positions, it can be furnished for knob or screw-driver slot actuation.
