Every Cherry TOUCH PANEL membrane keyboard is an ORIGINAL.

Cherry custom designing gives you complete versatility. The kind of versatility so important to the appearance and utility of your product. The kind of versatility that makes TOUCH PANELS available with any key arrangement, any legend, encoded or non-encoded, with or without lighting, added electronic components and display systems. In any size, any shape. With standard alphanumerics or special legends. Any color you can spec for backgrounds, keys, legends, your company logo or product trademark. Special patterns and surface effects, too.

All this versatility... and long service life, too. In home, office or hostile industrial environments. Because each TOUCH PANEL is custom designed and produced by the people who know more about keyboards than just about anybody. The people at Cherry.

LOW PROFILE means total thickness from just .030"
