

ANOTHER VINTAGE YEAR FOR CHERRYS

We planted the seeds for these Cherrys 25 years ago. Today they're the pick of the switching crop. Good, sturdy, hardworking switches with years of know-how, experience and refinement behind them... and a bright future ahead.

What kinds of switches? You name it, Cherry's got it. Snap-action switches with unique Cherry coil spring mechanism for long mechanical life. Gold crosspoint contact switches for low energy solid state circuits. Thumbwheel switches in a full range of alphanumeric readouts and output codes. Individual keyboard switches and complete keyboard assemblies with electronics. Rotocode® switches... a new rotary switch with coded electrical output.

If your products are made or sold overseas you'll be glad to know that Cherry's switches are available worldwide from our modern manufacturing plants in the USA, England, Germany and Japan and a licensee in Australia. All our switches have passed rigid performance requirements of independent testing laboratories. Many of our switches have been listed, certified or approved by various international testing and approval agencies.

Check the complete crop of Cherry switches. Ask for our latest 84 page catalog. For immediate action just phone (312) 689-7700.
