

CLICK! KLICKEN! KLICKNING! DÉCLIC!

All around the world.

They're built to travel. With listings like UL, CSA, VDE, SEMKO, SF, UTE and BS, that means just about anywhere.

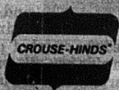

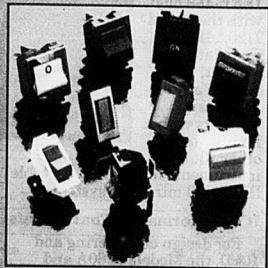

Specified in electronic instrumentation and in medical, data processing, telecommunications and duplicating equipment—the same switch can be used for both domestic and foreign markets.

Offered in a choice of colors and terminations. A wide circuit variety for designers and engineers. Lighted and unlighted styles. Snap-in mounting. Custom markings. Compact design. And a solid 16 Amp rating that puts them in applications where the others can't go.

Available from stock so you can count on delivery.

Send for our new 4-page brochure — Crouse-Hinds Company, Arrow Hart Division, 103 Hawthorn St., Hartford, CT 06101. Start clicking with Arrow Hart's 1600/2600 Series Miniature Rocker Switches.

They're clicking around the world.
