

Quality at your fingertips

Digitran sells more thumbwheel switches than all other manufacturers combined. With good reason.

Switches for every conceivable purpose, with an almost unlimited selection of output codes and options.

Sizes ranging from .315" to .570" in width and from .961" to 2.000" in height. Large easy-to-read characters, with optional lighting, including LED on some. Environmentally sealed or unsealed.

MIL-SPEC? We set the standards.

Our keypads have great tactile feel and redundant contacts. They're available in 6-, 12-, 16- and 20-key arrays, plus custom configurations for the volume OEM user.

And quality, reliability and performance are a well-known tradition at Digitran.

For our free, short-form catalogs, contact your nearest Digitran office.
