

Licon has more economical ways to light and control switch action.

If you sat down... took the best features of all low cost, low energy lighted pushbutton switches... you'd come up with the same thing we did... the LICON® Series 05 Lighted Pushbutton Switches. These are the switches you asked for.

Here are the ideal LPB switches for office machines, computers, appliances, home entertainment, etc. wherever requirements dictate low level switching, economy and high reliability. The Licon Series 05 Switch is available in momentary and maintained action plus lighted, non-lighted versions. The maintained action style offers "dual indication": light and lens position. Available in both double and single pole styles—single pole N.O., double pole N.O. and SPDT styles. Exclusive design offers smooth, pleasing "feel" plus snap-in bezel mounting that assures rigid retention. These amazing little switches also feature bifurcated, silver plated contacts, 110 quick disconnect or PC board terminals, a rainbow of colored lens cap choices and U.L. Listing.

05 Series Switches fit .625 square panel hole size; accept low cost T 1 1/4 wedge base lamp. Relamp from front panel. 25 Amp., 125 VAC rating. In addition, all these features are available in a compatible L.E.D. version complete with L.E.D. display lens.

05-6 Series Switches mount in a .750 square panel cutout. Use versatile front panel replaceable T 1 1/4 flange base lamp. Offered in 25 or 3 Amp versions, 125 VAC rating. Lens barriers are available.

We've got more to talk about too. Ask for full details, contact your local Licon Distributor, or call or write for our Switch Catalog: LICON, 6615 West Irving Park Road, Chicago, Illinois 60634. Phone (312) 282-4040. TWX: 910-221-0275.
