

KEYBOARD SWITCHES for INSTRUMENT PANELS

Now is the time to stop hand wiring to expensive panel-mounted switches.

Mechanical Enterprises' keyswitches are available at about *half-the-cost*. And, they are *self-supporting* on the PC board without the need for metal sub-plates.

Our switches feature —

- Sealed contacts or inexpensive gold bar mechanical contacts
- 3/4" or 5/8" spacing, or stand-alone
- Selection of legending systems including doubleshot keytops
- Lighted models in three lens styles, all relampable from front
- Single or double pole, NO or NC
- Momentary or alternate action
- Wave solderable
- 20 million cycle life at TTL loads with guaranteed low bounce

Please phone for a free sample with keytop.

ALCOCK B HIGHEST QUALITY INSTRUMENT KNOBS

Remember that Knobs are the most visible part of your equipment. Therefore, field acceptance of your product depends largely upon its' appearance.

ALCO has become a leading source in the USA for anodized aluminum knobs offering a wide variety of styles in five basic diameters.

Our knobs are better because they are totally machined with no compromise, even on the knurls. This offers a new dimension in appearance.

All knobs illustrated in our catalog are generally "off-the-shelf" in production quantities. However, we'll be glad to quote on custom knob designs too!

We urge you to call Customer Service at (617)-685-4371. Our salespeople know how to tend to your immediate needs. Also ask for our 24-page catalog and free sample!
