**MICRO SWITCH
HAS MORE ANSWERS
FOR CUSTOMIZING
YOUR CONTROL PANELS!**

MORE SWITCH DESIGNS, MORE FLEXIBILITY IN THE MICRO SWITCH PUSH-BUTTON LINES

When you want to design a control panel precisely tailored to your equipment and absolutely reliable, start with MICRO SWITCH. You'll find the wider selection fits your ideas, rather than your ideas having to fit the selection.

New "302 PB" Miniaturized Lighted Push-Button Switches have lamps designed for infinite service life. They give double-pole double-throw switching and 2-color indication in a unit requiring only one cubic inch of panel space.

Modular "Series 2" Lighted Push-Button Switches offer customized combinations of eight

different basic switches and dozens of colored indicators—and they snap together without tools. New truncated display screens add dimensional visibility.

MICRO SWITCH also makes the "Series 50 PB" lighted push-button switches as well as hundreds of different toggle switches and assemblies. Everything you need for customizing control panels. See the Yellow Pages for the nearby MICRO SWITCH Branch Office. Write for illustrated catalogs on push-button and toggle switches for control panels and machine control stations.
