

# Industrial designers like the way they look. Engineers like the way they work.

**MAIN PHOTO:**  
Series 3 (right) and Series 4 (left)

**LOWER PHOTO:**  
Series 4, (left) lowest cost, all three energy levels, snap-in mount.

Series 2, (back) with modular design, up to 4 lamps and 4 poles, military versions.

Series 1, (right) with bushing mount, panel seal, military versions.

Series 3, (front) the smallest in our line, with snap-in or matrix mount.

If you've got a particular idea about what a lighted push-button should look like, we've got four important numbers for you: Series 1, 2, 3 and 4.

They represent one of the biggest selections of lighted pushbuttons in the world.

So you get to choose from a long list of options, depending upon the switch you select. Like buttons available in popular, highly consistent colors. Either transmitted or projected. Legending includes hot stamp, engraved or film insert, with an optional hidden legend available. Barriers and housings come in a choice of colors. Lighting is single or multiple lamp. Mounting either single unit, strip or matrix. You can also choose between round or square configurations, and most of them offer front-of-panel relamping without tools.

But your choice doesn't end at the front of the panel. In back of the button, there are three energy levels available — solid-state, low-energy and power. You can choose among solder, quick-connect, P.C. board mount or screw terminals. They're all U.L. and C.S.A. listed, with military-listed variations available. Circuitry can be single-pole, single-throw through four-pole, double-throw. With momentary or alternate action.

And, even though each of the four Series has its own particular advantages, they all have one thing in common: the kind of reliability you'd expect from the company that pioneered lighted pushbutton switches.

If you'd like more information on any or all of the MICRO SWITCH lighted pushbuttons, call toll-free 800/645-9200 (in N. Y. 516/294-0990, collect) for the name of your nearest Branch Office or Authorized Distributor.

MICRO SWITCH products are available worldwide through Honeywell International.
