

SEACOR SWITCHES

TYPE P MODULAR PC PUSHBUTTON SWITCHES

Designed for printed circuit soldering • Interchangeable elements • SPDT to 8PDT per actuation • To 12 stations, std. • Signal and power switching • Greater than 500,000 cycles, life rating • Guided plunger.

SPECIFICATIONS

Contact Arrangements: SPDT to 8PDT; non-shorting.

NOW! Shorting or non-shorting

Current & Voltage Ratings—

Current: 2A, max.

Voltage: 250V eff. max.

Power: 15 WDC, 25 WAC

Initial Contact Resistance: 4 milliohms

Insulation Resistance: 2×10^{13} ohms between two contacts
Breakdown Voltage—

Contact to Contact: 2000 VRMS

Contact to Frame: 3000 VRMS

Life Test: 500,000 cycles exc. mut. rel. = 45,000 cycles

Power Switch: DPDT U.L. 6A @ 125V (17.5 mm only)

TYPE MX/MXL: MODULAR PUSHBUTTON SWITCH SYSTEM

Illuminated or non-illuminated modular design offers interchangeability of elements to meet any need. To 25 stations per frame. Signal and power switching. SPDT to 16PDT per actuation. The "Engineer's Switch."

SPECIFICATIONS—

Contact Arrangements: SPDT to 8PDT; shorting or non-shorting; double-wiping contacts

Current and Voltage Ratings—

Current: 2A, max.

Voltage: 250V, eff. max.

Power: 15 WDC, 25 WAC

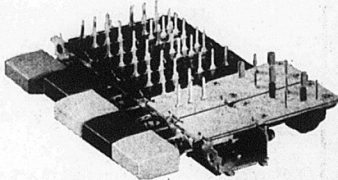

Initial Contact Resistance: 5 milliohms (between 2 contacts short circuited)

Insulation Resistance: 5×10^{10} ohms between 2 contacts

Breakdown Voltage—

Contact to Contact: 1500 VRMS

Contact to Frame: 2000 VRMS

Life Test: Greater than 100,000 cps before 1 mohm increase in contact resistance

Power Switch: DPDT spring loaded snap type. U.L. 3A @ 125V, TV-3

SERIES 5000 SUBMINIATURE SNAP-ACTION TOGGLE SWITCHES

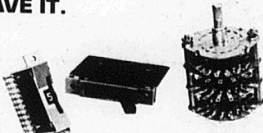

FEATURES—

Excellent mechanical and electrical performance • Minimum size; less panel space; less behind-panel space • Pinned handles for prevention of damage and rotation • Human engineered; positive switching "feel" • Exceptionally rugged highest quality materials • Hundreds of styles; wide range of options • All standard functions.

SEACOR—IF IT'S A SWITCH, WE PROBABLY HAVE IT.

Seacor has nearly any switch: pushbutton, rotary, thumb-wheel, toggle, slide, lever, etc., etc. If you need a switch we almost certainly have the one you need. Along with proven quality and reliability. Top-flight engineering help if you need it. Best possible prices and delivery. If you need switches, you need Seacor. Write for catalogs, prices and delivery.
